Description

is a set of software (office suite, graphic and music editors, antiviruses, archivers, Internet browsers, layout and design programs, etc.) for MS Windows that are open source or free for distribution.

It includes programs for solving a wide range of tasks, which are free functional analogues of expensive software, such as Microsoft Office, Adobe Photoshop, CorelDRAW, QuarkXPress, Sound Forge and others.

Kit Contents:

1. 96 programs for MS Windows on 2 DVDs;
2. Passport for the product (Legalization) for 1 PC.
